EDUCATION

University of North Texas, College of Engineering - Cumulative GPA: 3.798
Bachelor of Science - Computer Science, ABET accredited

Denton, Texas
May 2024

TECHNICAL SKILLS

React JS, Figma, Git, Python, JavaScript, TypeScript, Java, HTML, CSS, React Native, Spring Boot, C/C++, Flask, SQL, Jinja, Agile Methodology

EXPERIENCE

Goldman Sachs | Full Stack Developer

June 2024 – Present

- Developed, tested, and deployed full-stack web applications using **Typescript, React, Java** and **Spring Boot**.
- Worked **directly with end-users** on gathering user requirements, defining feature requirements, feature development, testing and iteration on feedback up until feature rollout.
- Collaborated with a **global** team using **Agile Methodologies**.

University of North Texas Faculty Helpdesk | Helpdesk Tech-Support Agent

Oct 2022 – April 2024

Goldman Sachs | Full Stack Developer Intern

June 2023 – August 2023

- Gained an in-depth understanding of the functions of a pre-existing codebase in order to write useful **end-to-end tests**.
- Cut down manual regression testing time by 90% by writing automated end-to-end tests using **Webdriver.io** and **Typescript** in **IntelliJ IDE**.
- Provided the broader Asset Management Tech team with **testing documentation**, automated testing guidelines for future testing efforts, and means to integrate the automated end-to-end tests into the **CI/CD pipeline**, replacing the previous manual testing workflow.

StandardUser Cybersecurity | Cybersecurity Intern

Feb 2023 – April 2023

- Created 3 functional websites using Python, Flask, Jinja, HTML, CSS, JavaScript, and APIs, secured against the OWASP Top Ten Vulnerabilities.
- Received in-depth knowledge on Secure Software Implementation, Testing, and Deployment, as well as Networking Concepts.

SEO, Technology Track | Full Stack Developer Intern

June 2022 – August 2022

- Built **full-stack** web applications using technologies such as **Python, MySQL, Pandas, MySQLAlchemy, Flask, Jinja, HTML, CSS, and JavaScript**.
- Identified and remediated any website code bugs/issues by performing integration, unit, and system testing.
- Led 3 teams to create software solutions to societal problems using **Agile** methodology.
- Programmed 6 applications leveraging various **RESTful APIs**.

PROJECTS

Scoutmaster | JavaScript, React Native, Expo Go, Mobile Development

Aug 2023-May 2024

- Ideated application design using Class, UML, ER, and Information Architecture diagrams as well as **Wireframes**, Design Summary and Rationale documentation.
- Designed and developed a responsive mobile application **User Interface** made up of **15+ navigable screens** for both **Android** and **IOS** using React Native.
- Utilized Expo-Go as an end-to-end testing tool for both **Android** and **IOS** operating systems, customizing components to create seamless UI and backend functionalities for both operating systems.
- Connected backend APIs for Google Maps API, Firebase API, and MongoDB with frontend components, leveraging my full-stack experience.
- Conducted **user testing** for key functionality and used **user feedback** to make improvements to application experience and functionality.
